

LOW WATER BRIDGE BAND

PRESS KIT

WHO WE ARE

Forged by firelight picking, the band's romping, stomping, country-grass Americana ain't for the faint of heart. Since their founding in 2020, they've gone from barnstorming the Shenandoah Valley to festival stages along the East Coast. Venues from the Carolinas to Kentucky and, yes, Nashville, Tennessee ring with their sound and are asking for more. From the first time you see them, your boots will be worn from kicking up dust. By the time a second chorus comes around you'll be hooting and hollering their memorable originals alongside their die-hard fans.

OUR MUSIC

Nestled in the Blue Ridge Mountains, Low Water Bridge brings a powerfully unique sound that shakes the mountains, rumbles through the holler, and fills the river bottoms.

GENRE

It's hard to pin a genre on Low Water Bridge. Combining Bluegrass roots with Americana and country sounds, Low Water Bridge Band creates timeless original music audiences love.

MEMBERS

They're led by guitarist and lead singer Logan Moore's searing melodies. The precision thump of brothers Alex and Riley Kerns' bass and drums and their pitch-perfect vocal harmonies fill out the sound. Justin Carver's pedal steel and banjo swirl through songs like smoke from the campfire. Stacey Rae Sinclair's fiddle spits licks of flame. And it's all brought together with the crunch and crackle of James "The Chainsaw" Montgomery's electric guitar riffs.
